carol.coles@normanok.gov

On Monday, July 9, 2012, the contractor will shift traffic from the existing I-35 northbound off ramp at Robinson Street to the new I-35 northbound off ramp at Robinson Street. The intersection of Robinson Street and North Interstate Drive will not be affected by this change in the off ramps. This operation will cause minimal, temporary impacts to traffic entering Norman from Interstate 35.

The I-35/Robinson Street Interchange Northeast Quadrant Project involves reconfiguring the northbound on and off ramps, a new traffic signal, drainage improvements and extending Interstate Drive from Robinson Street to Mount Williams Drive. Construction began on the project on Monday, April 2, 2011. The Oklahoma Department of Transportation is responsible for the construction of the project. The prime contractor is Silver Star Construction of Moore. The lead engineering firm on the project is EST, Inc. of Norman.

Additional questions may be directed to Mr. John Clink, Capital Projects Engineer, at (405)366-5452 or (405)366-5424.
